Dear Friends:

Congratulations on being a finalist for Manufacturer of the Year and thank you for supporting manufacturing in Florida! Your efforts, along with the economic turnaround that has escalated over the past two years, are working to move Florida in the right direction.

In Florida, we recently learned that our state's unemployment rate is down to 7.5 percent, the lowest in more than four years. Since December 2010, Florida companies have added nearly 320,000 private-sector jobs. Our efforts to reduce taxes, pay down state debt, and grow our economy are giving Florida families the opportunity to live their version of the American dream in the Sunshine State. While our strategy is working, we won't stop working until every Florida family that wants a job can get one. A growing economy is tied to having a highly educated workforce, and that is why we are making sure our schools prepare our children for success in the college and career of their choice.

Thank you again for the work you are doing in your community. You have my best wishes for your continued success.

Sincerely,
